

{(ANTI-) SOCIAL MEDIA: [PRIVACY ONLINE]}

ARE YOUR DEVICES READING YOUR MIND? (Ads)

No, but if your Mic Permission Settings are set to “Allow” it may be eavesdropping, listening in and COLLECTING WHAT YOU SAY.

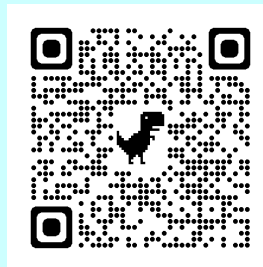

*(Check Mobile Permission Settings AND Social Media Permission Settings).

IS SOMEONE MAKING MONEY OFF YOU? (BIG DATA)

Yes, but you can LIMIT the data Social Media Companies Collect and Share with Third Parties by checking Account Permissions.

*(Scan QR Code below to Learn More on where to these settings across different platforms).

CAN CYBER-STRANGERS WATCH YOUR EVERY CLICK? (Activity)

Possibly, and though it's likely not *every* click that's visible to strangers online, it is clicks for LIKES, COMMENTS, SHARES, and More.

*(See if Settings shows OPTED-IN for SHARING ACCOUNT ACTIVITY and if so, OPT-OUT).

DO YOU HAND OVER YOUR PHONE'S DATA? (Privacy Settings)

Yes, but *how much* is up to you.

*(Find more information on Data Privacy Settings and which accounts allow you to review the data they have collected from you using the QR code above).
